and from December 29st to January 3th
Parking lot: for 25 cars (including 1 bus)
Application and inquiries: 0154-23-0425
FAX: 0154-22-8204

Main Simulation Facilities

1. Earthquake Experience Room

Using a simulator, you can experience earthquakes that have previously struck the Kushiro area, and learn how to act when an earthquake occurs.

2. Fire (Smoke) Evacuation Practice Room

With fires, smoke is very dangerous. You can experience evacuating from a maze full of smoke and learn how to evacuate safely.

3. Small-Fire Extinguishing Practice Room

Using a simulator with which you can extinguish a fire on a big screen using a fire extinguisher, you can learn how to use a fire extinguisher and the correct way to extinguish a fire.

4. Emergency Relief Activity Practice Room

You can learn the right lifesaving techniques to use in the event a disaster strikes.

5. Calling 119 Practice Corner

You can learn how to correctly call 119 in the event of a fire or other emergency.
